BERLIN, July 23.—The list of the German exhibitors at the Philadelphia Centennial Exhibition has been officially closed. The number of those who intend to exhibit in the art department is 800. The large manufactories on the Rhine and in Westphalia and Saxony will be specially represented, and an imperial commission has been appointed to obtain more room for the German department in the exhibition building.

LONDON, July 23.—Rev. Dr. McCosh, President of Princeton College, presided over the Presbyterian Council, yesterday. He made a speech, in which he eloquently traced the progress of the idea in favor of a union. He described his original suggestion at Philadelphia in regard to it, and the cordial reception of the scheme in America, which culminated in the success of 1873, when a meeting of the Evangelical Alliance, such as was only possible in the United States, was held; this led to a conference between distinguished men, who declared that the accomplishment of the scheme was one of the greatest desires of their hearts. With regard to the constitution, he might say that the council had agreed to take the consequences of a reformed church. The objects of the alliance were settled, and the council would consider the question of the general interest of the community, seek the welfare of the weak and oppressed churches, collect and distribute information about the church, and entertain all subjects connected with the work of evangelization. Resolutions favoring the alliance were then unanimously passed.

The Constitution adopted by the Presbyterian Council has been made public. The name given the new union is "The Alliance of the Reformed Churches throughout the World." All churches are included which hold the Presbyterian system and creed. The preamble of the constitution recites that the objects of the alliance are to demonstrate the unity of belief among Protestants, to organize mission work, promote educational and social reports, and oppose infidelity and religious intolerance.

The Central Press report of the scenes in the House over the shipping bill, says it was remarked in the lobbies that there was much method in Mr. Plimsoll's madness. The outburst was apparently prearranged. Mr. Plimsoll came to the House with his valise, and was prepared to go to prison. He has been in the library of the Commons to-day, searching for precedents. He persists in his refusal to withdraw his remarks, and a tremendous scene is expected when the subject comes up again next Thursday.

The waters of the river Neve, at Peterborough, are from fifteen to twenty feet above the ordinary level, and the current has increased in velocity to sixteen and twenty miles an hour. Last night the rise was so sudden that the bedrooms in the buildings along the river were flooded, and the sleeping inmates barely saved their lives. 4,000 acres of grazing land are flooded between Earith and Denburgh, and 3,000 cattle are deprived of pasture. The water is three or four feet deep on 4,000 acres of land near Whittlesey. No such flood has been seen in that section of the country for fifty years.

WINTHROP, ME., July 23.—The national bank at this place was robbed on Thursday last. The robbery was a bold operation. The safes were blown open by nitro-glycerine, as is supposed, there being no indication of powder. There were three distinct explosions, all of which were heard by several persons. The robbers left within ten minutes of the last explosion, which was so severe as to blow out all the windows in the front part of the bank, and caused a general smash up inside. The contents of the main safe were so badly mutilated and so many fragments were left behind, that it is thought that the amount realized by the robbers could not have been large. The capital stock of the bank is \$100,000, and the amount of the deposits in the savings bank was about \$100,000. The safes of both institutions were rifled of their entire contents. The standing of the bank, the Directors say, will not be impaired. A despatch says four men have been arrested on suspicion, near Bethel, but, as the distance from here is about forty miles, it is doubtful if they could have got so far in the time they had.

WASHINGTON, July 23.—The Government has purchased at New Orleans the steamer Planter, a small boat, drawing but four feet of water, but strongly constructed. She will be properly armed and manned, and sent to the Rio Grande for duty on that river, to prevent the Mexicans from crossing into Texas and running off cattle. The Planter has been ordered to Mobile, and Lieut. Com. D. C. Kells detached from the iron-clad Canonicus and sent to that city to take command of the vessel. It is said that one or two other steamers of similar character will be purchased and fitted out to act with the Planter in the suppression of Mexican depredations.

WHITE SULPHUR SPRINGS, W. V., July 23.—Resolutions were adopted, that the President appoint a committee of three on the insolvency bills pending, which was adopted. The President named Whelless, of Nashville, Whitlock, of New York,

and Pinckney, of Charleston. M. Eslin, of New Orleans, moved that the convention recommend to Congress the early completion of the Texas and Pacific Railroad, and the acceptance of the proposition made by Col. T. A. Scott, which were adopted without discussion. Mr. Pinckney, of Charleston, moved that two grades be established in addition to those adopted at the last convention, to be known as middling fair and fair, and that the Committee on Classifications at New York be requested to put up the same and forward it to the other exchanges. Mr. Johnson, of Savannah, moved that all cotton exchanges represented in the convention should account for official use the figures of the next crop statement, to be compiled by a committee appointed from the National Exchange for that purpose. Adopted. The convention then received a report from the committee upon the plan pursued by the New Orleans Cotton Exchange to secure correct information and make up official crop statements for 1874-75. It was favorably received. The convention resolved to adopt the same plan for the National Cotton Exchange reports in the future. The report of the Committee on the Definition of False and Fraudulently Packed Cotton and Mixed Cotton was received. False and fraudulently packed cotton is defined to be such bales as may contain any foreign substance, water-packed bales, or bales containing damaged cotton in the interior without any indication of such damage upon the exterior of the bales, and such bales as are plated or composed of good cotton upon the exterior and decidedly inferior cotton in the interior, bales packed in a manner not to be detected without opening the bales. This definition was unanimously adopted and made official. It was moreover resolved that the reclamation of such cotton to be valid must be made within 100 days after the arrival and be presented to the seller at the point of shipment within thirty days thereafter. The same committee reported the following definition of mixed packed cotton: Such bales as contain more than one quality of cotton, the lower quality being so situated in the bale that no design of false or fraudulent packing appears. The difference, however, in quantities must equal at least one-half a grade in bales sold as low middling, and above and one full grade bales sold as below low middling. This was adopted and made official. There was an evening session, at which the subject of locating the National Cotton Convention was brought forward. The committee were in favor of Augusta, Ga., and their report was adopted, but, as no President and Director was elected from that place, Mr. C. N. Rowland, of Cincinnati, made a motion that the Executive Council be authorized to change the domicile fixed by vote of the convention, in case such a contingency should arise. This was adopted unanimously, without discussion. Mr. Rowland also made a motion that the Executive Council be instructed to obtain a charter and provide a seal for the National Cotton Exchange Association. Adopted unanimously.

No sickness in quarantine or at Pensacola. Women and children are stricken down at Barrancas." To which a reply was sent by the Secretary of the Navy: "You are authorized to take whatever action you may deem proper for the security of the yard and safety of the people under your command." Another despatch from Commodore Cooper states that the soldiers at Fort Barrancas have been removed to Fort Pickens, on account of the existence of the yellow fever at the former place. OBITUARY.

Died, in Lexington County, S. C., on the evening of the 21st instant, Captain DRURY NUNAMAKER, aged forty-eight years.

Tribute of Respect.

At a meeting of the Richard Volunteer Rifle Club, held on the evening of the 23d inst., the following preamble and resolutions were unanimously adopted: Truly, "in the midst of life we are in death." Again, and for the third time since our re-organization, his death entered our ranks, and with his relentless and icy grasp, with him from amongst us our beloved comrade, WILLIAM ROY. At all times and under all circumstances, is death a solemn thing, but in this most solemn. One comrade, full of life, and proud in the strength of his own manhood, has been suddenly called away from this earthly camping-ground, to take his place amongst those by whose side he so nobly stood, in the past, in defence of all that makes life dear, in that great camping-ground beyond the river. Therefore, be it

Resolved, That while we deeply deplore the loss that not only our organization, but the whole community has sustained in the death of William Roy, a noble soldier and an upright citizen, "an honest man, the noblest work of God," yet we bow to the decree of an omniscient God, knowing that he "doeth all things well."

Resolved, That we tender to the widow of our deceased comrade our most heartfelt sympathy in this her sad bereavement.

Resolved, That our Secretary be instructed to set apart a page in our records to be inscribed to the memory of William Roy.

Resolved, That a copy of this preamble and resolutions be properly engrossed and forwarded to the widow of our comrade, and that they be published in the daily papers of the city.
